🪪 Profile Summary

Driven by results and attention to detail Strong background in programming languages and technologies as a software engineer. competent in developing, testing, and debugging software. proficient in Java and willing to participate in initiatives that develop software. dedicated to lifelong learning and quick development cycles. strong ability to solve problems and strong communication talents.

🎓 Education

B.Tech / Computer Science and Engineering   2020 – present
Nutan College Of Engineering and Research   Pune, India

H.S.C   2020
M.P.L Nehru College Tumsar   Tumsar, India

S.S.C   2018
St. John Mission English School   Tumsar, India

📂 Projects

Attendance Monitoring System   2022 – 2023
Major Project

Developed an Attendance Monitoring System utilizing Java programming to streamline and automate attendance tracking processes. Designed an intuitive user interface for efficient data entry and retrieval. Implemented database integration for accurate record-keeping and reporting.

Image Classification System   2021 – 2022
Mini Project

Created an Image Classification System using Python and machine learning algorithms to accurately categorize images. Employed deep learning techniques and convolutional neural networks for robust classification performance. Improved model accuracy through extensive data preprocessing and optimization.

🧠 Skills

- Java Programming and Data Structures
- Quick Learner and Attention to Detail
- Skilled in creating and refining SQL queries for quick data extraction and manipulation.
- Proficient in English Communication both verbal and written
- Strong command of C programming.
- Enthusiastic about learning and adapting to new tools and technologies quickly.
- Logic and Problem-Solving and Team Collaboration

🎸 Interests

- Programming, Networking
- Playing Suduko, Puzzle Solving Games
- Fitness

Certificates

- Java Beginner to Master ↗
- Full Stack Java Developer - Udemy

🌐 Languages

- English
- Hindi
- Marathi
